

LIVE Learning Through Virtual Classrooms

Engaging | Intuitive | Interactive | Convenient

»» www.southpac.biz

In response to the emerging needs of our clients and community in a time of rapid change and uncertainty, Southpac is pleased to announce the launch of our **Live Learning through Virtual Classrooms Initiative.**

Our globally renowned face to face courses, that are synonymous with thought leadership and workplace relevance, are now available from anywhere on the globe in a real-time virtual classroom.

We are pleased to offer a solution that not only addresses some of the specific challenges of today but also opens enormous possibilities and opportunities for tomorrow.

It may seem like there is less opportunity for participation and engagement in a virtual classroom setting, but this is not necessarily true. There are many ways to interact in virtual classrooms through direct interaction with the

trainer and fellow classmates, as well as additional chat and rating features, along with highly engaging breakout rooms and interactive whiteboards.

These days, people expect fast, convenient, engaging ways to learn in their workplace. So, this is an exciting path to ensure we provide meaningful, engaging and intuitive training.

A virtual classroom enables learners from all over the region and beyond to come together in a highly interactive virtual classroom, greatly reducing the time, travel and expense of traditional training programs.

TO EDUCATE, TO LEAD, TO INSPIRE...

Why Virtual Training?

The Benefits

- 1 Interactive**
LIVE Learning through our Virtual Classrooms provides the same interactive experience that you would expect from a Southpac course, but with the advantage of increased participation and engagement.
- 2 Flexible**
Learners have the freedom to absorb content and engage with peers, at a time and location that suits them best.
- 3 Mobility**
Use almost any device to access the virtual training.
- 4 Engaging Tools**
Captivating tools including shareable whiteboards, candidate polls, chat function and group work via breakout rooms.
- 5 Supportive**
Talk one on one with the facilitator with additional support available.
- 6 Cost Savings**
Reduced costs when going to courses in person. Save on flights, accommodation and daily allowances, let alone cafe coffee prices!

What do I need to participate?

Minimum Requirements for Zoom

System Allowances

- An internet connection – broadband wired or wireless (3G or 4G/LTE)
- Camera, speakers and a microphone – built-in or USB plug-in or wireless Bluetooth
- Devices to access virtual training could include - desktop, tablet, laptop or smart phone

Recommended Bandwidth for Webinar Attendees:

- For 1:1 video calling: 600kbps (down) for high quality video and 1.2 Mbps (down) for HD video
- For screen sharing only (no video thumbnail): 50-75kbps (down)
- For screen sharing with video thumbnail: 50-150kbps (down)

Our Recommendation for the Best Virtual Training Experience

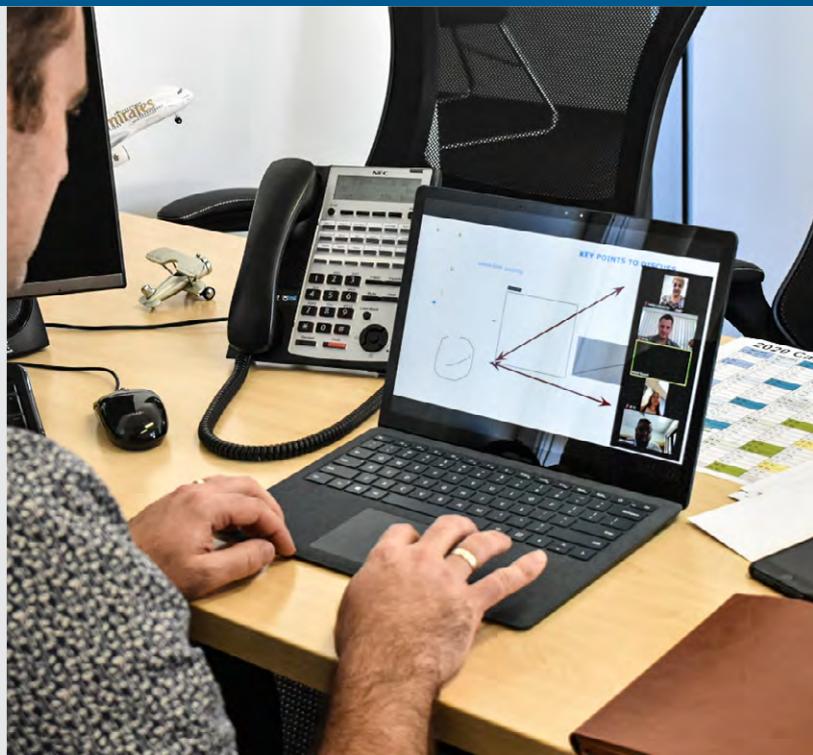

While it's possible to combine any number of devices suggested above, we do recommend using a two-screen experience for best training outcomes. In saying that, this is not essential and it is possible to achieve successful outcomes with a strong commitment to the training program.

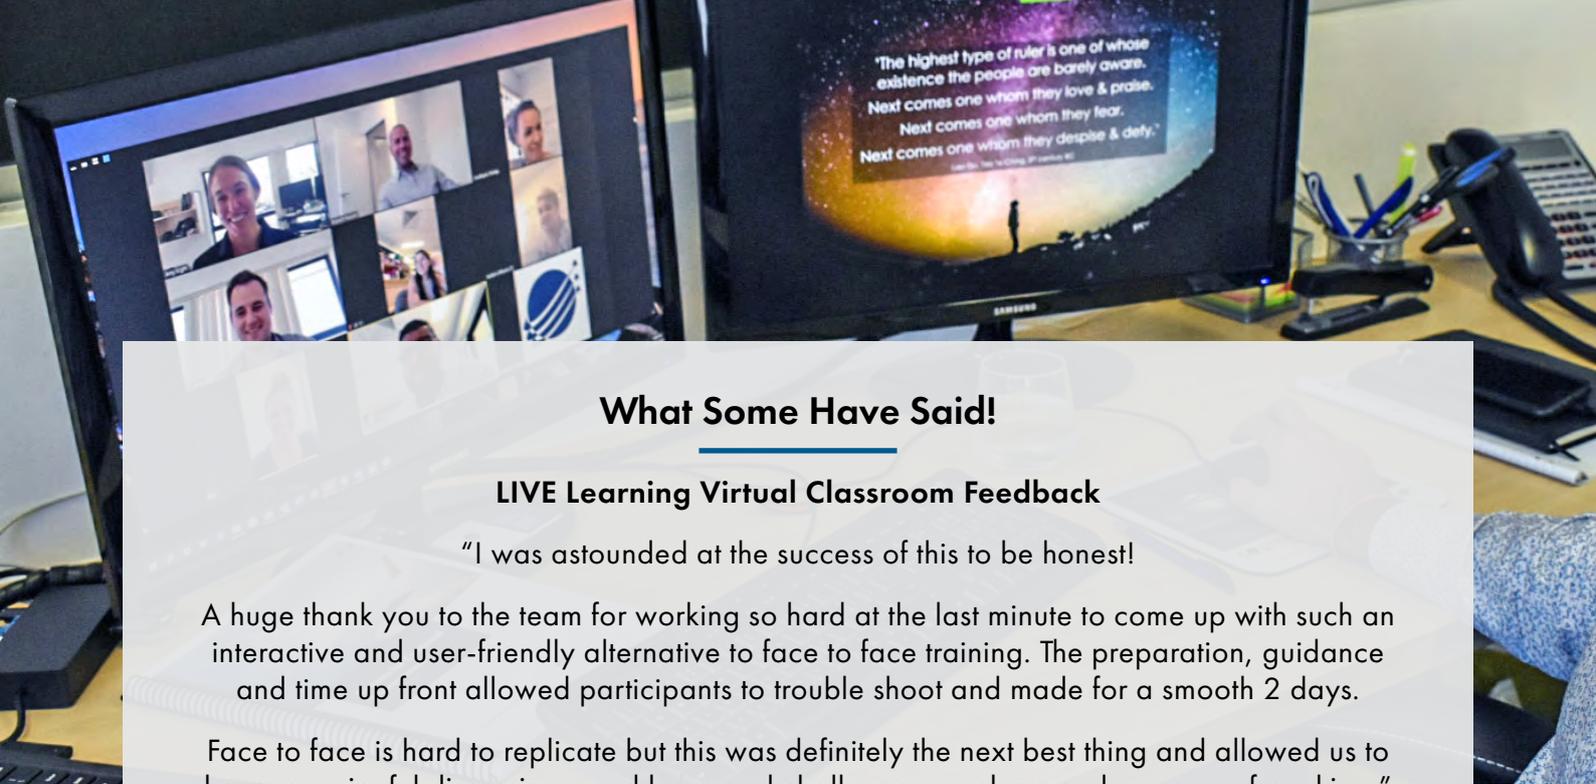

Any queries on your technological requirements, please refer to the [Zoom system requirement webpage](#) or contact us.

Virtual Classroom Inclusions

What's Included

- Interactive and lively discussions
- Captivating tools including shareable whiteboards, candidate polls and chat function, allowing additional input and engagement
- Stimulating group work via innovative breakout rooms
- The ability to talk one on one with the facilitator
- Additional course support available

What Some Have Said!

LIVE Learning Virtual Classroom Feedback

"I was astounded at the success of this to be honest!

A huge thank you to the team for working so hard at the last minute to come up with such an interactive and user-friendly alternative to face to face training. The preparation, guidance and time up front allowed participants to trouble shoot and made for a smooth 2 days.

Face to face is hard to replicate but this was definitely the next best thing and allowed us to have meaningful discussions, and learn and challenge ourselves, and our way of working."

We are now rethinking how we might use a similar approach for some of our existing training courses."

Student Testimonials

Great feedback below from one of our LIVE Learning Virtual Classrooms.

"It was great! So happy to be able to do it. Missed the dynamics of Face to Face but so great, thank you for making it possible."

"Face to face is best, but this is the next best thing."

“
"I really liked the new way of conducting a course and not being close to colleagues."

"Great software."

"I loved the whiteboard, you could do this in a Face to Face scenario to get everyone's thoughts."

"Demonstrated resilience - I loved the sessions."

”
"Breakout rooms were great for conversations."
